non-permanent residents included in total 2001 Census population - based on 2006 boundaries. Economic family - refers to 2 or more ind. living in the same dwelling, rel. to each other by blood, marriage, common-law or adoption. Experienced labour force - includes ind. who worked since 1/1/2005 and who were employed or unemployed during the ref. week. Non-movers - on Census day were living at the same address as 1 or 5 years previously. Non-migrant movers - lived at a different address but in the same census sub-division. Average - or arithmetic mean is calculated by dividing the sum of the included categories by the number of the included categories. Median - an alternate measure of "average" Median income of a specific group is that amount which divides their income size distribution into halves (below & above the median) Prevalence of low income - the percentage of a specified group below Statistics Canada's low income cut-offs (LICO)
